PRIMARY TARGET AUDIENCE

TEENAGERS AND YOUNG ADULTS AGED BETWEEN 15-30

VALUES: AUTHENTICITY, NOSTALGIA, AFFORDABILITY

BRAND HOOKS: EMOTIONAL CONNECTION TO CHUCK TAYLOR, VERSATILE EVERYDAY WEAR

COMPANY ANALYSIS

Strengths	Weaknesses
Iconic global brand, deep cultural roots in music & youth subcultures	Heavy reliance on Chuck Taylor
Timeless, unisex design with broad appeal	Comfort and tech lag behind competitors
Backed by Nike’s supply chain, marketing, and resources	Limited customization options
High-impact collaborations (CDG, Off-White, Rick Owens, Sacai)	Some premium collabs priced above budget expectations
Expanding into apparel & accessories	Need greater innovation to sustain relevance

COMPETITIVE LANDSCAPE

- **Vans** competes closely with similar pricing and strong youth cultural relevance, viewed by young consumers as trendier and more comfortable.
- **Nike** lifestyle models (*Air Force 1*, *Dunk*, *Blazer*) attract style-driven shoppers with heritage design plus modern comfort.
- **Adidas Originals** (*Samba*, *Superstar*, *Gazelle*) appeals to the same retro-style demand and often benefits from stronger trend momentum and marketing freshness.

MARKET CONTEXT

- **Streetwear growth** aligns with Converse's heritage, but trends now favor *chunkier*, more futuristic silhouettes.
- **TikTok-driven fashion cycles** heavily influence youth style: Converse must re-energize its presence on the platform to stay culturally relevant with Gen Z.
- **Sustainability expectations** are rising: consumers demanding recycled materials, waste reduction, and transparent impact reporting.

COLLABORATORS

- **Strong retail partners** (Foot Locker, JD)
- **High-impact designer collabs** (CDG, Abloh, Sacai, Rick Owens)
- **Influencers & music partnerships** strengthen cultural relevance

COMP+CONTEXT +COLLAB

WORKS

- **High brand recognition** and iconic, timeless designs.
- **Affordable entry price**, desirable for students.
- **Cultural credibility** anchored in music and expressive communities.
- **Collabs** that keep Converse visible among fashion-forward audiences.

DOESN'T WORK

- **Comfort & durability** are major barriers for daily use.
- **Innovation pace** is too dependent on one silhouette.
- **Gen Z relevance** and diminished presence in key fashion cycles.
- **Social media presence** lacks community-driven content.
- **Sustainability perception** is not visible enough to consumers.

WHAT WORKS WHAT DOESN'T?

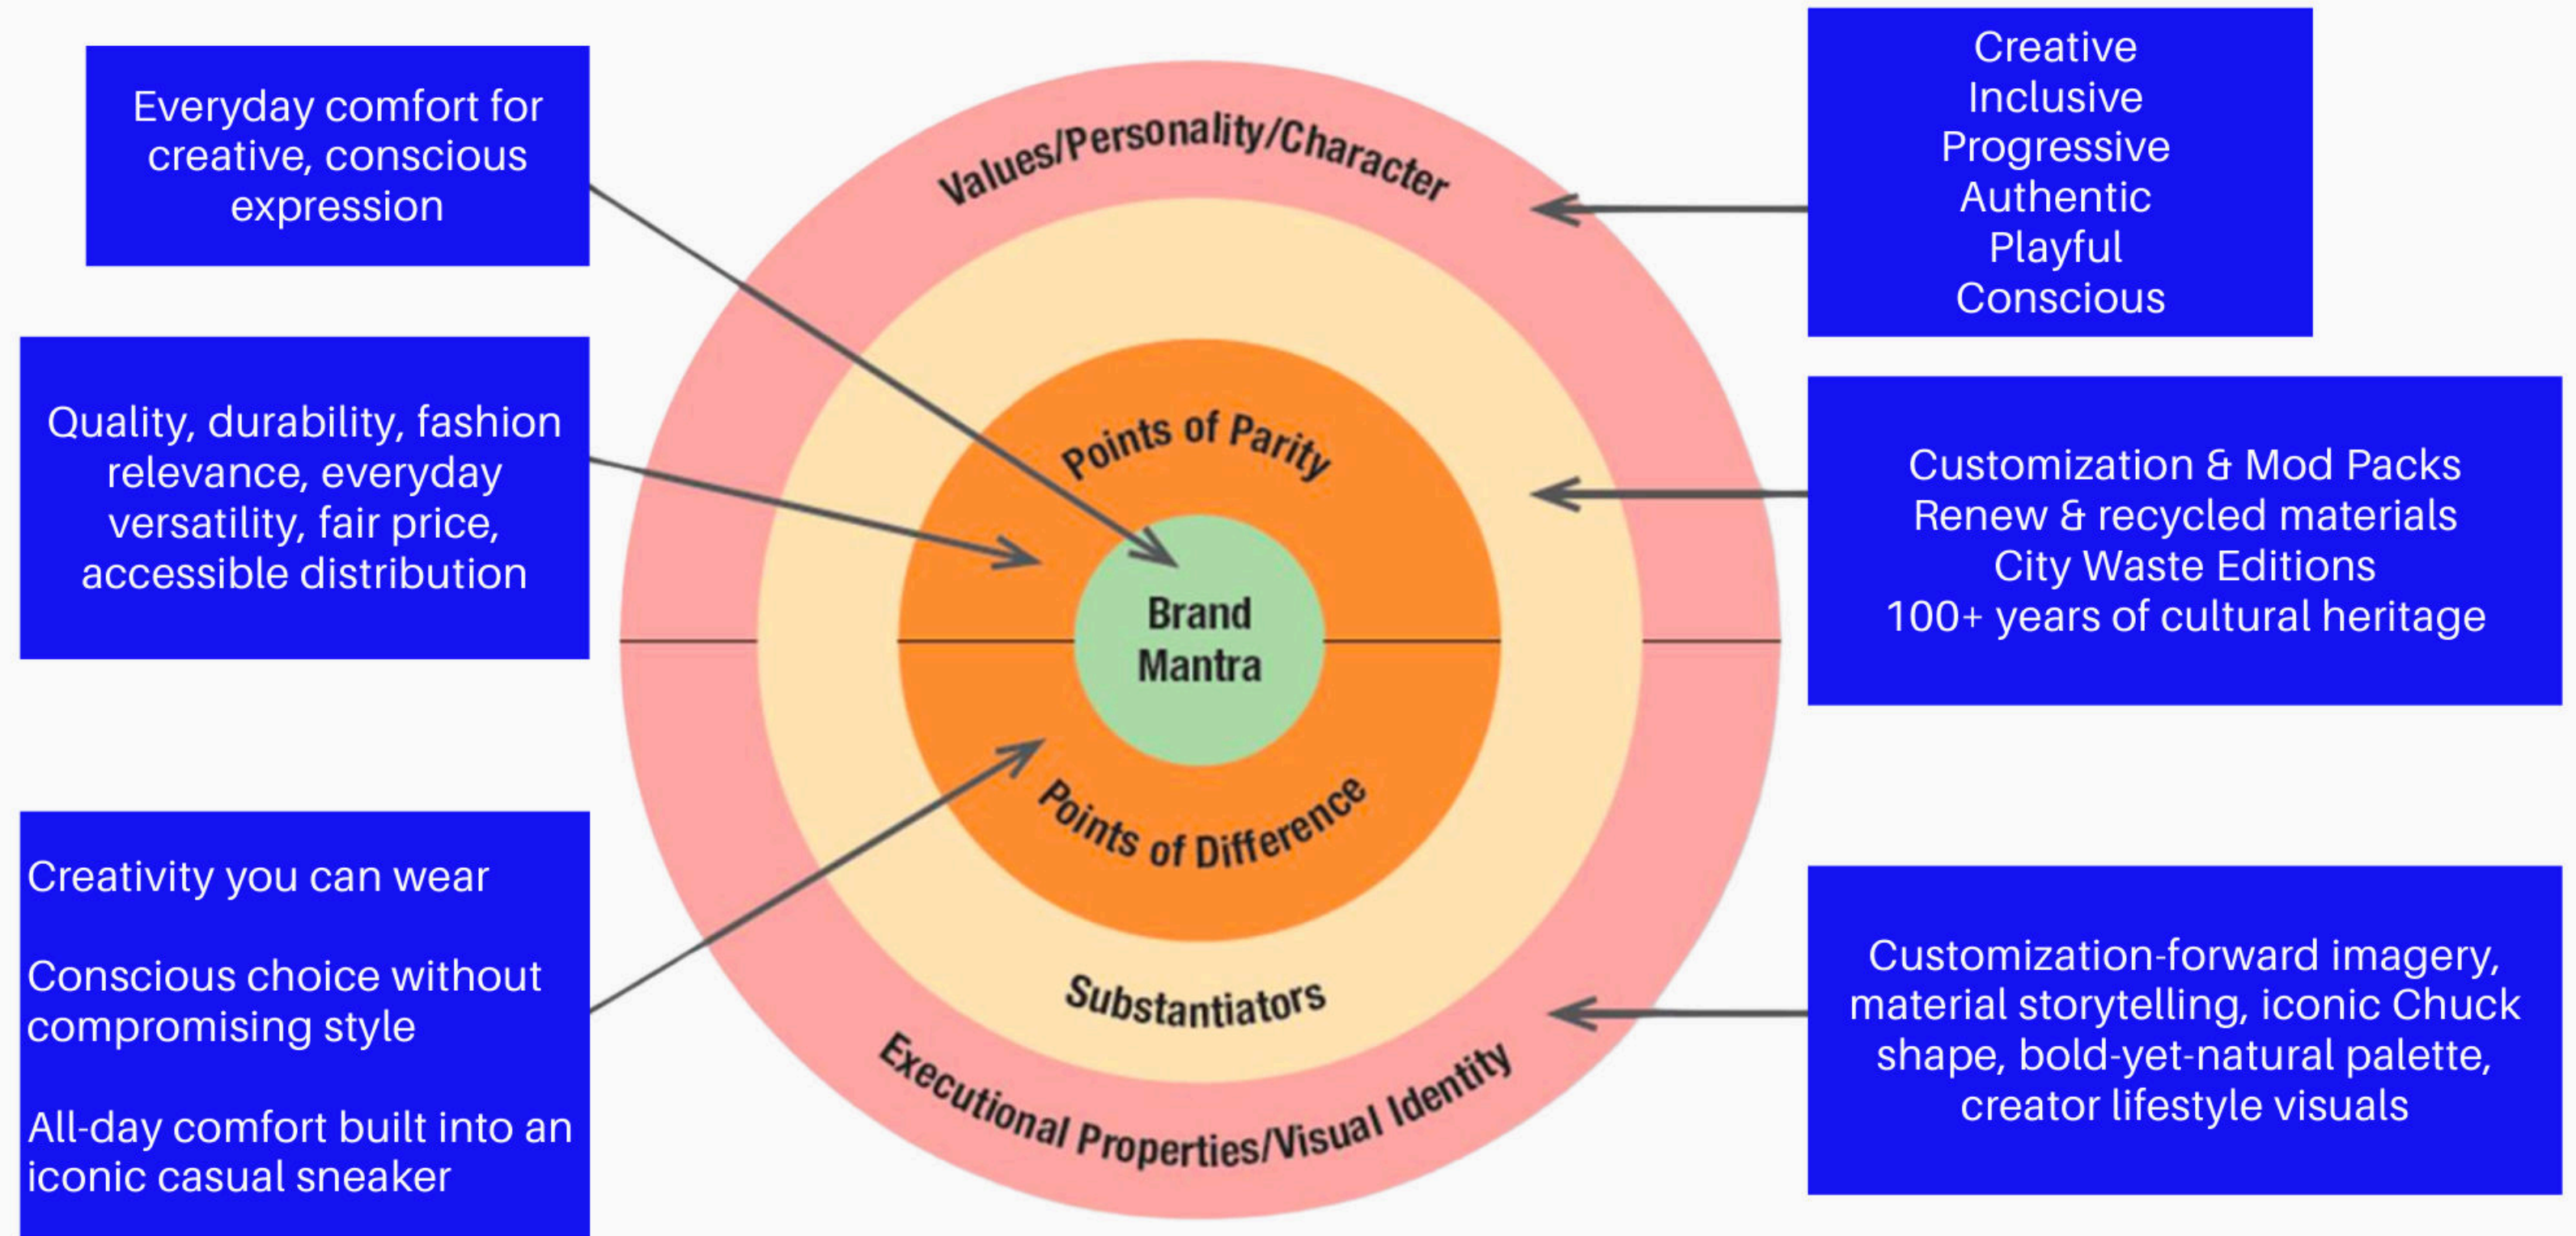

SEGMENTATION AND TARGETING
